SEWP Overview

NASA SEWP VI – The NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced "soup," provides Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for Federal Agencies and their approved contractors. SEWP is a Government-Wide Acquisition Contract (GWAC) managed by the NASA SEWP Program Management Office. The program is self-funded through a 0.34% surcharge and provides acquisition support to Federal customers.

Fair Opportunity

FAR 16.505(b) (1) provides that each contractor shall be given fair opportunity to be considered for each order exceeding $10,000 and issued under multiple award contracts. The FAR states that the method to obtain fair opportunity is at the discretion of the Contracting Officer and that the CO must document the rationale for placement and price of each order. Using the SEWP online Quote Request Tool is the recommended method to assist in this activity and to augment the required decision documentation. The SEWP Quote Request Tool (QRT) will automatically include the Contract Holders within a selected Group or based on a suggested source.

Mission-focused application development and modernization, cloud and platform services, AI/ML and automation, data analytics, Agile/DevSecOps, and other IT services supporting agency programs and mission outcomes within SEWP scope.

For an official SEWP scope determination, customers may submit an overview of their requirement to help@sewp.nasa.gov.

Ordering Process

The internal ordering process of each Agency varies. An end user typically identifies a requirement and generates a Purchase Request (PR), which is sent with the necessary funding information to the Agency's procurement office. The procurement office issues the Delivery Order (DO). The NASA SEWP Program Management Office does not issue DOs; it reviews, processes, and tracks issued DOs and forwards them to the applicable Contract Holder(s).

Delivery Orders and subsequent order modifications must route through the NASA SEWP Program Management Office. Ordering Contracting Officers remain responsible for following their Agency-specific acquisition policies and procedures.
